

MARVEL SUPER HERO ISLAND

As you pass from the animated world of Toon Lagoon, you enter into the fast-paced real-life world of Marvel Super Hero Island. This is the world where mortals take on super human powers to battle the forces of evil. Transfer yourself into the world created by Marvel Comics; a world that is darker and sometimes scarier than the one you just left. It's a place filled with cityscapes of art deco themed skyscrapers, newsstands where you can pick up a copy of the *Daily Bugle*, or find the Automat and 5 & Dime Stores.

While you are finding your way through the streets, be sure to check out the best collection of thrill rides to be found in the park. Be shot up into oblivion on *Dr. Doom's Fear Fall* or take a thrilling, mind numbing ride on the *Incredible Hulk* coaster. For the ultimate experience, try out what could be considered the most amazing ride ever built. Get the "scoop" at *The Amazing Adventures of Spider-Man*.

COMIC BOOK STORE

What would a trip to Marvel Super Hero Island be without a stop at the comic book store? Fans and first-time readers can pick up a copy of one of Marvel's most favorite comic books featuring characters, such as the Incredible Hulk or Spider-Man. Lesser known comics featuring Punisher and Iron Man are also available. For the hardcore fan, a collection of hard bound books and comic book apparel are available.

CHILL ICE CREAM

Guests will find the standard soft serve ice cream here, served up with a few unusual names. Take a trip to the frozen tundra with an Ice Cap Cone or go off the deep end with the Deep Freeze Sundae.

FROZEN ICE

Quench your thirst and the heat with a frozen cherry, blue raspberry, Coke or Sprite frozen ice drink. Those not looking for a good old fashioned brain freeze can cool down with a soda, water or juice.

THESE BRAVE RIDERS on the Incredible Hulk coaster have already experienced a 40 mile per hour launch and four disorienting inversions in only a matter of seconds. Little do they know, there are three more inversions and several thousand feet of track just ahead of them.
